Elevating Logistics

One of the few opportunities capable of such international reach, Poyle 80 is located just 2 miles from Heathrow's cargo terminal, which connects to a network of over 234 destinations worldwide as of July 2024.

Poyle is one of Greater London's most established logistics hubs, thanks to its direct access to the M25 Motorway (J14) and close proximity to Heathrow Airport's passenger and cargo terminals, as well as its strategic last-mile connectivity to Europe's largest consumer market: London.

Access to Markets

One of the few opportunities with such extensive national reach, Poyle 80 directly serves 60% of the UK population within a single 4.5-hour HGV journey.

Strategically located just 0.5km from J14 of the M25, Poyle 80 benefits from its prominent position on Horton Road. The M25, London's principal orbital highway, places the nation's capital at your doorstep. Additionally, the M4 (J4B) and M3 (J2) motorways are a short drive away, providing key arterial connections and seamless access to Central and Greater London, as well as the wider South West region.

The M3 and M4 motorways offer last-mile operators two fast, alternative routes into some of the most affluent areas of West London.

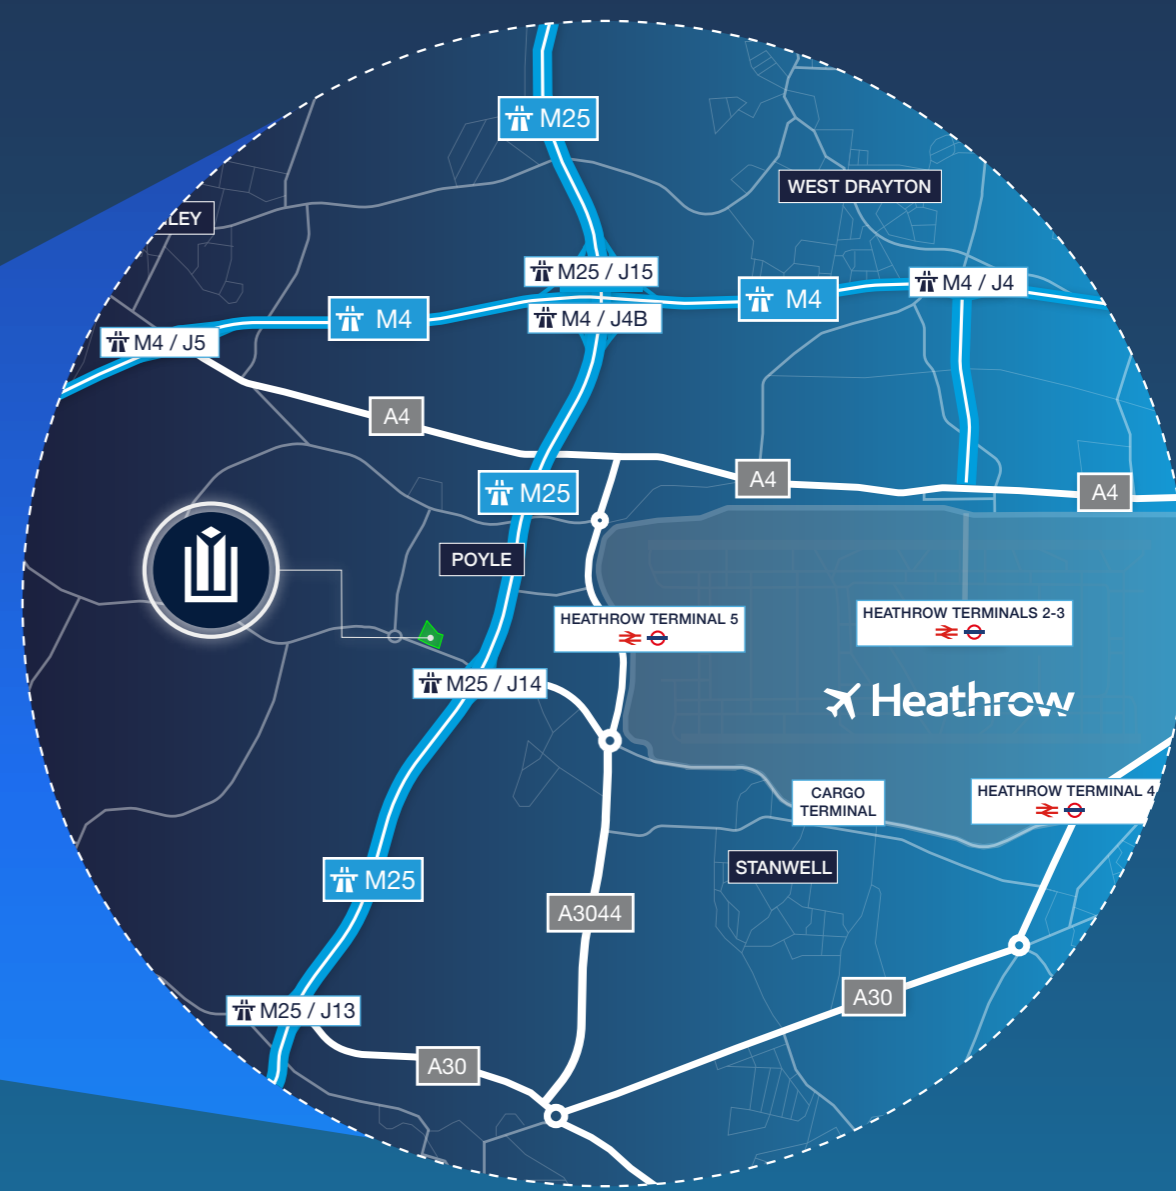

With its prime location, Poyle 80 is superbly positioned as a central distribution hub for businesses with global aspirations, enabling same-day e-commerce and e-fulfillment operations.
